

Please leave Wisconsin's No-Call law alone. My wife and I are between 25 and 40 with 2 children, the absolute perfect group for most telemarketers. There used to be days where we would get more than 10 telemarketing calls per day. We stopped answering our phone and screened all calls through our answering machine. Since we signed up, our telemarketing calls have been less than 2 per day. We can now answer our phone when it rings. Don't ruin this, and in fact, please make the Federal Law as strong as Wisconsin's. Thank You.
